PREFACE

Thanks to Allah SWT for all his blessing and love. He gives me a big power to finish my thesis.

My thesis focuses on an analysis of students' speaking anxiety. This thesis is written to make the students understand the analysis of speaking anxiety deeply. So that, the students will know what is their anxious in speaking English. Therefore, it should be some ways and solutions to solve the problem. In this case the researcher used qualitative research.

Besides, one the reasons to conduct this research is to know "what are the dominant factors that lead the students speaking anxiety?"

It hopefully gives the information to analyze of students' speaking anxiety at twelve grade of SMK AL-FURQON Bondowoso. The researcher realized that this thesis has a weakness and correction is hoped.
