MOTTO

“Growth is a process of experimentation, a series of trials, errors, and occasional victories. The failed experiments are as much as part of the process as the experiments that work.”

PREFACE

In the Name of Allah, the Most Beneficent and the Most Merciful. All the praises to Allah, the Lord of the universe for giving me a chance and power to finish this thesis under the title “An Error Analysis of The Use Simple Present Tense in EFL Students’ Descriptive Text”. This thesis is written to make the readers understand about the type of simple present tense errors and the causes of the students’ error in the use of simple present tense in the students’ writing text made by eleventh grade students of SMK PGRI 5 Jember. Error refers to grammatical errors in English foreign language students in their text. Hopefully this research can give teachers an overview about students’ errors in using simple present tense. The writer realizes that this thesis is far from being perfect. Therefore, suggestion and comment are needed to make this thesis better. The writer also would like to thanks for all of those who have given the contribution so this thesis can be finished.
