PREFACE

Thanks to Allah for all His blessings and loves. He gave me power to finish my thesis.

My thesis focuses on students' writing ability. This thesis is written to make readers understand about the students' ability in and what the difficulties faced by students in writing descriptive text during online learning. Writing is one of the language skills in learning English that must be mastered by students even though they have difficulty.

Besides, the reasons to conduct this research are intend to know "How is the students' ability to write descriptive text during online learning?" and "What are the difficulties faced by students when writing descriptive text during online learning?"

It will hopefully give the information for English teacher to improve their methods in teaching writing, and also to find out aspects of students' strengths and weaknesses in writing descriptive text and also for other genres. The researcher realizes that this thesis has weakness and the correction is hoped.
