Dear Editor:

I am pleased to submit an original research article titled "**Triangular Interaction Of Decision Making For Breastfeeding A New Infant-Centered Care Model**" by Nikmatur Rohmah et al. for consideration publication in The **Medico Legal Update**.

We previously found an analysis of Original Study Good quality interaction between the registered nurse and the patient by Salehe, B. and Njine D. Seinäjöki Univ Appl Sci (2016). This text builds on previous research to explain Triangular Interaction Of Decision Making For Breastfeeding.

In this manuscript, we show that there are four categories form a triangle-shaped model of interaction. We believe that this manuscript is appropriate for publication by **Medico Legal Update**. It suits the purpose of providing a platform for publications of scientific articles in the areas of nursing area.

This manuscript has not been published and is not under consideration for publication elsewhere. We have no conflicts of interest to disclose.

Thank you for your consideration.

Sincerely,

Nikmatur Rohmah, Kep., Ners. M.Kes.
