Keywords: Speaking skill, teaching technique, online learning

Speaking is so much a part of daily life that we take it for granted. Speaking in human life is very important because the human cannot live normally without communicating with other people. Teachers need several techniques that must be used in teaching speaking. Technique teaching in speaking skills classes is used to facilitate teaching speaking and to improve students' speaking skills. Online learning is learning through the help of the internet network so that there will be interaction in teaching and learning activities between students and teachers. Especially in the digital era, where all learning is done by online learning. Therefore, this research was conducted with the title "An Analysis of Techniques for Teaching Speaking Skills on Online Learning at Tenth Grade Students of MAN 2 Jember". In this research, the problem is "what techniques are used in teaching speaking skill on online learning used by Teacher at tenth grade students of MAN 2 Jember?" and the objective of this research is to explain some techniques used in teaching speaking skill on online learning at tenth grade students of MAN 2 Jember.

The design of this research is descriptive qualitative. The research subject is two English teachers in tenth grade students. The data was collected using the interview method.

In this research, it can be found that several techniques used by English teachers in teaching speaking in online classes are discussions, storytelling, information gaps and picture describing. The instrument used is an interview. The participants of this study were tenth grade English teachers at MAN 2 Jember. In this research, there were two teachers who were interviewed regarding the teaching techniques they used during online learning.

From the several techniques, there is one technique that was not used successfully when online learning. In this study the information gap technique did not work well and had difficulty being applied to online classes. Based on this research, it can be concluded that the techniques used to teach speaking in online classes are discussion, storytelling and picture describing.
