PREFACE

Thanks to Allah for His blessing and love. He gave me strength to finish my thesis.

My thesis focuses on the reading comprehension. This thesis is written to make the readers understand about the use of Collaborative Strategic Reading to comprehend reading text. Reading comprehension is the common problem which must be some ways to solve, through the appropriate strategies, in this case the researcher used Collaborative Strategic Reading (CSR).

Besides, one of the reasons to conduct this research is to know “ how can the use of Collaborative Strategic Reading give significant different between students who are taught using CSR and the students who are taught using summary method on the eighth grade students’ reading comprehension achievement in academic year 2015/2016.

It will hopefully give the information of using Collaborative Strategic Reading on reading comprehension achievement. This thesis will also become consideration for the English teacher to use CSR in the teaching and learning process at school. The researcher realizes that this thesis has weaknesses and the correction is hoped.
