PREFACE

There is no beautiful words except all praises to Allah for His blessings and love. He gave me power to finish my thesis.

This thesis is focuses on the implementation of Communicative Language Teaching Method on speaking ability. This method is not only hoped to give an effect on students speaking ability, but also solved the problem of the students on learning the target language.

From the explanation above, the researcher is doing the research to know the effect of Communicative Language Teaching Method on the students speaking ability at SMPN 2 Yosowilangun in the academic year 2015/2016. It hopefully helps the English teacher find an alternative way to teach speaking to the students and improve students' speaking ability. The researcher realizes that this thesis has many weaknesses and the correction is hoped to make this research better.
