PREFACE

Thanks to Allah SWT for all his blessings and mercy that gave me power to finish my thesis. This thesis is written to make the readers understand that task complexity is able to influence student writing performance. Writing is one of productive skill for EFL leaners which must be improved. In this case the researcher investigates the student writing performance especially in student effective writing.

One of the reasons to conduct this Research is intend to know "Is there any significant effect of task complexity (+/- Few Element) on undergraduate EFL learners' writing performance in terms of its effective qualities?"

Hopefully this research may give information of the task complexity may affect the effective student's writing. This thesis will also become consideration for the English teachers in arranging syllabus with the suquences tasks based on cognitive complexity of task, sorting from low to high complexity tasks as a learning reference. The reaserache reliazes that this thesis has weakness and the correction is hoped.
