## PREFACE

Thanks to Allah for all His blessings and loves. He gave me the strength to finish my thesis. My thesis focuses on reading comprehension. This thesis is written to help the readers understand about the effect of the use of partner reading strategy on reading comprehension. Reading comprehension is a common problem which must be some ways and solutions to improve the students' reading comprehension ability through the available teaching method, in this case, the researcher is the used partner reading strategy.

Besides, one of the reasons to conduct this research is to know “whether there is significant difference in reading comprehension of students who are taught by using partner reading and students who are taught by using individual reading at SMAN 2 Situbondo”

It will hopefully give the information of using a partner reading strategy to improve the students' reading comprehension. This thesis will also become a consideration for the English teachers to use partner reading in the teaching and learning process at the school. The researcher realized that this thesis has weaknesses, and the correction is hoped.
