PREFACE

First of all the researcher would like to say thanks to Allah who always gives all His blessing and mercy. He gives the researcher power to finish her thesis entitled “An Analysis of Students Perception on Descriptive Text Using Google Docs in Tenth Grade Students of SMK Negeri 01 Jember”.

This thesis focuses on the student's point of view. This thesis is written so that the reader knows or understands the student's point of view when writing using Google Docs.

Hopefully this thesis can provide information about students' perspectives in writing with Google Docs as a consideration for teachers to use Google Docs as learning media for students. The researcher also would like to thank to all of those who have given the contribution so that this thesis can be finished. This thesis so far from the perfectness, so critics and suggestion are needed to make this thesis better.
