PREFACE

Thanks to Allah for all His Blessing and loves, He gave me power to finish my thesis.

My thesis focuses on Reading ability. This thesis is written to make readers understand about the use Reciprocal Method to Reading Ability Achievement. Reading comprehension is the ability to process text, understand the meaning of the text. From this ability, student can understand what is mean by author, then they builds their meaning from the text that has been read, in this case, the researcher used reciprocal method.

Beside, one of the reason to conduct this research know “is there any significant effect of reciprocal teaching on reading ability achievement in SMP 1 Muhammadiyah Jember 2022/2023 Academic year.

It will hopefully give the information of using reciprocal to improve reading ability. This thesis will also become consideration for the English teacher to use reciprocal method in the teaching and learning process at the school. The researcher realizes that this thesis has weakness and the correction is hoped.

Jember, July 29th 2023

Fahmi Rido Wargadinata
