**Keywords:** Basketball, Physical condition

*Basketball is a game played using one or two hands by two opposing groups, each group has five players. To play a match requires excellent mental and most importantly physical condition to achieve success in a match. The aim of this research was to determine the physical condition which includes endurance (bleep test), explosive power (vertical jump), speed (speed), agility (agility), and strength (push-ups) of the Genteng Women's Banteng Regency Banteng Regency. The method used is a quantitative descriptive approach with test and measurement techniques. The population was all players from the Banyuwangi Regency Genteng Women's Bull Club and then used a purposive sampling technique to produce a sample of 15 players who actively participated in training. Results: Push-ups from 15 people had an average result in the medium category of 10 players with a percentage of 66.7%, Vertical Jump had an average result of 9 players with a percentage of 60%, Speed Test had a result of less than 15 players with percentage 100%, Illinois Test has good average results for 10 players with a percentage of 66.7%, Bleep Test has good average results for 14 players with a percentage of 93.3%. From the several tests carried out above, namely the Strength test (push-up), Explosive Power (vertical jump), Speed (speed test), Agility (Illinois test), and Endurance test (bleep test) it can be concluded that the physical condition of the Banteng Regency Banyuwangi Regency Banteng women's basketball player is considered moderate.*
