

ABSTRAK

Kesadaran umat Islam untuk menerapkan prinsip-prinsip syariah dalam kehidupan sehari-hari mendorong peningkatan investasi pada saham syariah, khususnya di sektor perbankan syariah yang dapat menjadi pertimbangan dalam berinvestasi sesuai dengan prinsip Islam dengan melakukan analisis profitabilitas dan kinerja keuangan melalui laporan keuangan perusahaan. Penelitian ini bertujuan untuk mengetahui pengaruh *Return On Asset (ROA)*, *Return On Equity (ROE)*, *Earning Per Share (EPS)*, dan *Price Earning Ratio (PER)* terhadap harga saham perbankan syariah di BEI periode 2019-2023. Jenis penelitian ini kuantitatif yang menggunakan aplikasi pengolah data SPSS versi 29 serta sebanyak 60 data observasi dari tiga perusahaan perbankan syariah yaitu PNBS, BRIS, dan BTPS. Hasil pengolahan data menyatakan bahwa *Return On Asset (ROA)* berpengaruh positif signifikan terhadap harga saham. *Earning Per Share (EPS)* berpengaruh positif signifikan terhadap harga saham. *Return On Equity (ROE)* tidak berpengaruh signifikan terhadap harga saham. *Price Earning Ratio (PER)* tidak berpengaruh signifikan terhadap harga saham.

Kata kunci: Analisis laporan keuangan, *Return On Asset (ROA)*, *Return On Equity (ROE)*, *Earning Per Share (EPS)*, *Price Earning Ratio (PER)*, harga saham.

ABSTRACT

The awareness among Muslims to implement Sharia principles in daily life has driven an increase in investment in Sharia-compliant stocks, particularly in the Islamic banking sector. This trend can be considered in investment decisions aligned with Islamic principles by conducting profitability and financial performance analyses through company financial reports. This research aims to determine the influence of Return On Asset (ROA), Return On Equity (ROE), Earning Per Share (EPS), and Price Earning Ratio (PER) on the stock prices of Islamic banks listed on the Indonesia Stock Exchange (BEI) from 2019 to 2023. This quantitative research utilizes SPSS data processing application version 29 with a sample of 60 observations from three Islamic banking companies, namely PNBS, BRIS, and BTPS. The data processing results indicate that Return On Asset (ROA) has a significant positive effect on stock prices, while Earning Per Share (EPS) also shows a significant positive impact on stock prices. However, Return On Equity (ROE) does not significantly affect stock prices, and Price Earning Ratio (PER) similarly lacks a significant influence on stock prices.

Keywords: Financial statement analysis, Return On Asset (ROA), Return On Equity (ROE), Earning Per Share (EPS), Price Earning Ratio (PER), stock prices.
