PREFACE

In the Name of Allah, the Most Beneficent and the Most Merciful. All the praises to Allah, the Lord of the universe for giving me a chance and power to finish this thesis. This Thesis focuses on the use of Grammarly software in essay writing. This thesis is written to make the readers understand about students' perceptions of Grammarly software. Grammarly software is an Artificial Intelligence-based application that is widely used today to assist writing process. In this case, the researcher examined the use of Grammarly software in essay writing.

Besides, one of the reasons for conducting this research is to know what are students' perceptions of using Grammarly software in helping them to check the problems of their essays.

It will hopefully give information on using Grammarly software in essay writing. This thesis will also be a consideration for students who have problems in the process of writing in English. The researcher realizes that this thesis has weaknesses and the correction is hoped.
