PREFACE

Thanks to Allah for all His blessings and love. He gave me the power to finish my thesis. My thesis focuses on vocabulary ability. This thesis is written to make the readers understand the use of the Educandy Application in increasing students' vocabulary mastery. Vocabulary is a common problem that must be solved in some ways, and solutions must be found to improve students' English language skills through available teaching methods; in this case, researchers use the Educandy Application.

Besides, one of the reasons for conducting this research is to find out "how can the Educandy learning media be used during English language instruction to improve the vocabulary mastery of seventh-grade students at SMP Plus Raudlatut Tholabah for the 2023/2024 school year.

This thesis is expected to provide information on using electronic-based instruction to improve students' vocabulary abilities. It will also consider how English teachers can use the Educandy Application in schools' teaching and learning process. The researcher realized that this thesis had weaknesses, and corrections were expected.
