This study aims to determine the partial effect of Islamic Work Motivation (X1), Islamic Work Environment (X2) and Islamic Leadership (X3) towards employee performance (Y) Toko Basmallah Tempurejo Jember. This research used a quantitative method approach. The population in this study were the employees of Toko Basmallah Tempurejo Jember and covered 75 employees as the number of samples. The data collection technique used was a questionnaire with data instrument tests (validity and reliability tests), classical assumption tests (multicollinearity test, normality test, and heteroscedasticity test), multiple linear analysis and hypothesis testing (t test and coefficient of determination) with the help of SPSS 21.0 for Windows software application. The results of this study indicate that, partially, the : Islamic Work Motivation (X1) has a significant effect on employee performance (Y) with significance value of 0.026. Partially, the Islamic Work Environment (X2) has a significant effect on employee performance (Y) with significance value of 0.028. While the Islamic Leadership variable (X3) partially has a significant effect on Employee Performance (Y) with significance value of 0.013. The adjusted R-squared value of 0.799. This indicates that 79% of variations in employee performance variable can be well explained by Islamic Work Motivation, Islamic Work Environment, and Islamic Leadership. The remaining value of 0.21 or 21% is influenced by other variables that are not examined in this study.
