Kata Kunci : Perhatian, Ketertarikan, Keinginan, Tindakan, Dan Minat Beli

ABSTRACT

Current developments continue to encourage industry in various fields to continually produce new discoveries for each of their products. This creates tight competition between companies in fighting for the market. Every company certainly wants to be successful in carrying out its business. In the modern era, the fashion industry has become popular among people, from teenagers to adults without any age limit. Nike has been operating in Indonesia since 1988 and almost a third of the shoes currently available are products from there. Nike has also acquired several clothing and shoe companies throughout its history, some of which have since been sold. The purpose of this study is to ascertain how much impact advertising has on customers' inclination to purchase Nike products among Jember students at Muhammadiyah University. This study employs quantitative descriptive techniques. Students from Muhammadiyah University of Jember participated in this study. There were eighty responders to the accidental sampling technique. The study's findings demonstrate that among students at Muhammadiyah University of Jember, consumer buying interest in the Nike brand is positively and significantly impacted by the attention, interest, desire, and action variables.
