## PREFACE

Thanks to Allah SWT for all His blessings and loves. He gave me power to finish my thesis. My thesis focuses on writing performance. This thesis is written to make the readers understand about the use of ChatGPT to improve EFL students' writing performance. This research uses collaborative classroom action research method with 2 cycles and using open ended questions. Besides, one of the reasons to conduct this research is intended to know “ How can ChatGPT be used to help EFL students improve their writing of narrative essay in English?”.

It will hopefully give the information of using ChatGPT to improve EFL students' writing performance. This thesis will also be considered for the English teachers to use AI-assisted tools at school as the media for the students to learn. the researcher realizes that this thesis has weakness and the correction is hoped.
