PREFACE

Thanks to Allah for all His blessing and loves. He gives me power to finish my thesis. My thesis focuses on speaking ability. This thesis is written to make the readers understand about the use of Problem-based Learning to improve speaking ability. Speaking through the available teaching method, in this case the researcher used Problem-based Learning.

Besides, one of the reasons to conduct this research is intend to know "How can Problem-based Learning improve speaking ability of the class X of SMK Muhammadiyah Jember in academic year 2019/2020?

There are six chapter in this research : the first chapter about introduction, second about chapter review related literature and action hypothesis, chapter about third research design, chapter about fourth result of the research, chapter about fifth discussion and chapter six about conclusions and suggestion.

It will hopefully give the information of using Problem-based Learning to improve students' speaking ability. This thesis will also become consideration for the English teacher to use Problem-based Learning in teaching and learning process at the school. I realize that this thesis has weakness and the correction is hoped.
