R : Here is the first question sir " How do you teach writing to your students?"

E : I teach writing based on the material that is going to learn it is written in my lesson plan.

R : What is the media or method do you usually use?

E : I usually use scientific paper to writing tasks and video as a new media that bring in class. Because students are excited when I show video or movie to them such as Sangkuriang and Moana.

R : What about the tasks sir?

E : Mostly I divide them into groups and having discussion about the topic

R : So movie is the new media you bring because the students are happy about it.

E : True. I used Moana Cartoon Movie by Disney. It was 90 minutes length. Next question?

R : Yes sir, that's really long duration though, alright what kind of text books and another media do you use?

E : Sometimes I bring articles about latest topic in the world plus news paper. About the media I still use laptop to show video and speaker to make a better sound from the video. The book that I used came from a comprehensive of education book entitled *Think Globally, Act Locally*.

R : What material that you need so you bring the video into class?

E : It depends sometimes the students ask me to teach using videos such as narrative text and news items. Something like that. Because I understand students sometimes bored about the media the teacher use.

R : The third question, How do you administer writing test to the students?

E : I use test same as the other teacher, team work and presentation

R : What are the common mistakes made by the students in writing text?

E : Mistakes that often occur and are made by students in writing are grammar errors and lack of vocabulary.

R : How do you face it?

E : I give them a time to open their dictionary and sometimes I just answer it directly.

R : Now we are in the last question, what are the difficulties you face in teaching narrative text?

E : Some of the difficulties that teacher faced in teaching writing are students' attention, lack of exposure to books and writing material, students' lack of vocabulary. Nowadays, teachers are having a hard time in motivating the students, not because of the students' naughtiness, but the students are not interested in learning writing.
