Skripsi ini mengkaji peran komunikasi interpersonal orang tua dengan anak tentang permasalahan pernikahan dini di Kecamatan Pakem Kabupaten Bondowoso. Mengingat tiap tahun selalu terjadi kasus pernikahan dini di Kecamatan Pakem, maka penting bagi orang tua memberikan wawasan tentang pernikahan dini kepada anak sedini mungkin, agar anak lebih mengerti bahwa pernikahan dini dilarang negara serta banyak dampak buruknya. Penelitian ini menggunakan metode penelitian kualitatif deskriptif dan menggunakan metode wawancara kepada orang tua dengan menggunakan landasan teori dari Abx Newcomb. Sehingga hasil dari penelitian ini menyimpulkan bahwa ada dua jenis komunikasi yang dilakukan orang tua dengan anak yakni ada yang secara langsung dan tidak langsung, Para orang tua di Kecamatan Pakem juga memberikan solusi agar anak-anaknya terhindar dari pernikahan dini yakni dengan memondokkan anak dipesantren kemudian setelah keluar dari pesantren anak akan ditunangkan kemudian dinikahkan.

ABSTRACT

This thesis examine the role of interpersonal communication between parents and children regarding the problems of early marriage in Pakem District, Bondowoso Regency. Given that every year there are always cases of early marriage in Pakem District, it is important for parents to provide insight into early marriage to their children as early as possible, so that children understand better that early marriage is prohibited by the state and its many negative effects. This study uses descriptive qualitative research methods and uses interviews with parents using the theoretical basis of Abx Newcomb. So that the results of this study conclude that there are two types of communication that parents do with children, namely direct and indirect. Parents in Pakem District also provide solutions so that their children can avoid early marriage, namely by placing their children in pesantren later, after leaving the pesantren the children will be engaged and then married off.
