PREFACE

Thanks to Allah for all His blessing and loves. He gave me power to finish my thesis.

My thesis focuses on writing skill. This thesis is written to make the readers understand about the application of Pair Work Technique to improve the students' writing skill. Writing activity has an important contribution to students. But there were some problems faced by the students in writing. In this case the researcher used pair work technique to solve their problem.

One of the reasons in conducting this research is to know “How can pair work technique improve students writing skill and how can pair work technique improve students participation in the teaching and learning process at SMP Muhammadiyah 6 Wuluhan in the 2017//2018 academic year?

It may hopefully provide beneficial teaching input for the teacher to apply a sufficient teaching technique to improve the students' writing skill and useful to motivate the students to tackle, solve their problems and improve their writing skill. The writer realizes that this thesis has weaknesses and the correction is hoped.
