## **PREFACE**

Thanks to Allah for all his blessings and loves, he gave me power to finish my thesis. My thesis focuses on analyzing speaking ability. The thesis is written to make the readers know about most tenses and grammatical errors made by students. Speaking is the common problem which must be analyzed in order to the students are able to speak up correctly and fluently.

Besides, one of the reasons to conduct this research is intend to know what aspects can make tenses and grammar error on students speaking practice at SMK Puspa Bangsa Banyuwangi in academic year 2017 / 2018.

It will hopefully give the information of some student's errors especially tenses and grammar usage in speaking practice. This thesis will become consideration for the English Teachers as a reference when they find problem on students speaking ability at the school. The researcher realizes that the thesis has weakness and the correction is hoped.
