

ABSTRAK

Penelitian ini dilakukan terkait dengan pengelolaan Aset Desa Tahun 2020 di Desa Tugusari Kecamatan Bangsalsari Kabupaten Jember. Penelitian ini bertujuan untuk mengetahui dan menganalisis pengelolaan aset Desa Tugusari Kecamatan Bangsalsari Kabupaten Jember melalui kegiatan yang meliputi: perencanaan, pengadaan, penggunaan, pemanfaatan, pengamanan, pemeliharaan, penghapusan, pemindahan, pengelolaan, pelaporan, dan evaluasi. Metode penelitian yang digunakan adalah deskriptif dengan pendekatan kualitatif. Narasumber dalam penelitian ini terdiri dari beberapa narasumber antara lain Kepala Desa, Tim Pengelola ADD Desa Tugusari, Wakil Ketua BPD (Badan Permusyawaratan Desa) dan Perwakilan Masyarakat. Teknik pengumpulan data yang digunakan berupa wawancara, observasi, dan analisis dokumentasi. Teknik analisis data dilakukan dengan mengorganisir data, penyederhanaan data, proses analisis data dan hasil interpretasi. Hasil penelitian ini menunjukkan bahwa pengelolaan aset Desa Tugusari Kabupaten Jember belum sepenuhnya sesuai dengan peraturan Menteri Dalam Negeri Nomor 1 Tahun 2016 yang meliputi perencanaan, pengadaan, penggunaan, pengamanan, pemeliharaan, penghapusan, pengalihan, pengelolaan, pelaporan, evaluasi, pembinaan, pengawasan dan pengendalian. Karena kendala, pengelolaan aset di Desa Tugusari belum sepenuhnya tepat. Hal ini dibuktikan dari Kepala Desa bahwa masih terdapat beberapa aset desa yang belum diamankan dan dipelihara secara khusus.

Kata kunci : *Pengelolaan Aset Desa*

ABSTRACT

This research was carried out in relation to the management of Village Assets in 2020 in Tugusari Village, Bangsalsari District, Jember Regency. This study aims to determine and analyze the management of Tugusari village assets, Bangsalsari District, Jember Regency through activities which include: planning, procurement, use, utilization, security, maintenance, deletion, transfer, management, reporting, and evaluation. The research method used is descriptive with a qualitative approach. Resource persons in this research consisted of several sources including the Village Head, the Tugusari Village ADD Management Team, the Deputy Chairperson of the BPD (Village Consultative Body) and Community Representatives. The data collection techniques used were interviews, observation, and documentation analysis. Data analysis techniques are carried out by organizing data, simplifying data, analyzing data and interpreting results. The results of this study indicate that the asset management of Tugusari Village, Jember Regency is not fully in accordance with the Regulation of the Minister of Home Affairs No. 1 of 2016 which includes planning, procurement, use, security, maintenance, deletion, transfer, management, reporting, evaluation, guidance, supervision and control. Due to constraints, the management of assets in Tugusari Village is not yet completely correct. This was proven by the village head that there were still several village assets that had not been specifically secured and maintained.
