PREFACE

Thanks to Allah for all His blessings and loves. He gave me power to finish my thesis.

My thesis focuses on textbook analysis and quality of content. This thesis is written to make the people who are engaged in education understand about how the quality of English textbooks that are commonly used in Indonesia. Moreover, books are a necessity in supporting teaching and learning activities.

Besides, one of the reasons to conduct this research is to know “how are content quality of the English textbook used in second grade of senior high school based on National Education Standards Board (BSNP)?”

It will hopefully give the information of using assessment rubric based on BSNP standards as a method to analyze national English textbook recommended for senior high school. This thesis will also become consideration for the English teachers to use the suitable English textbook in the teaching and learning process at the school. I realize that this thesis still needs suggestions and critics to become better in the future. I do hope this final project can be beneficial for everyone
